

What students and teachers are saying about

## "No Child Left Inside,"

the exciting new environmental education program by  
**Legacy Land Trust**

"I learned so much... I hoped the field trip would never end."

- 7th grade student  
Burbank Middle School,  
Houston ISD

"You did a fantastic job at using the same vocabulary that we use in the classroom and lab – thanks for reinforcing! You seem to hit on everything that we have been teaching in life science in preparation for the TAKS test... you really touched on the science skills that I am unable to have real-life examples of in the science lab... this is a great experience..."

- Robin McGuire, 5th grade  
Science Teacher  
Monahan Elementary School  
Sheldon ISD

"I had fun testing all the water samples... It was one of the best field trips I have ever been on."

- 8th grade student  
The Woodlands Christian Academy, The Woodlands, TX

After learning water quality testing protocols on January 15, 2009

"I... liked this trip because we got to be outside all day. This was fun because I am always inside all day."

- 8th grade student, The Woodlands Christian Academy  
After learning water quality testing protocols on January 15, 2009

Berry Elementary School service learning project to remove invasive species from the nature trails on April 9, 2009

"It was good that they all got to participate. I gave a quiz to the students the day after the field trip and they all did well on it."

- Kathy Heinzerling, 7th grade Science Teacher  
The Chinquapin School, Highlands TX

After learning about non-point source water pollution on November 20, 2008
